If you are not sure where to place your child, please call, text, email and we will be happy to discuss the level placement. Ages are only a guideline, as we have to base on ability and maturity allowing dancers to progress at an ideal rate. Sometimes if the child is more interested in recreational dance they may have to step down a level as to not hold those back who are more serious. Children want to be with their friends and this usually holds back the class as it turns into a social hour. We want students to have fun but at the same time there are those who want to concentrate. It also makes it difficult for the teacher. This was brought to my attention by a concerned parent who observed her child's class and is taking steps to advance her child away from distractions.
